

# Vaccines Supply Information

*(Last updated November 2018)*

---

This page has been produced to provide you with additional information regarding long term vaccine supply information. When supply shortages occur, we work hard to return to a reliable service as swiftly as possible. We recognise and sincerely regret the inconvenience that may be caused to you and to your patients/consumers.

## **Rabipur**

Rabipur resupply in November 2018.

## **Menveo**

Menveo is currently out of stock. We anticipate that supply will remain constrained into 2019 due to limited production capacity and improvement activities combined with high demand.
