How to use your Seretide® Evohaler®
with the Volumatic Spacer Device
(Salmeterol/Fluticasone Propionate) -
Instructions for use Leaflet

Your healthcare professional should be consulted for advice on which Seretide Evohaler is appropriate for you and your condition.

This leaflet is intended for patients who have been prescribed Seretide Evohaler. This leaflet has been designed to help you use your inhaler correctly. It should be used in conjunction with the patient information leaflets for the Seretide Evohaler Device and Volumatic spacer, where full information can be found and is not a substitute for reading them carefully. If you have any questions about your medicine please speak to your healthcare professional.
