

This material is intended for delegates attending ESPID 2020. Due to virtual nature of the congress, material will be available for up to three months after the congress, until 31/01/2021. After that this material will be considered expired, and should be discarded. Should you need a support after 31 Jan 2021 please get in touch with your GSK contact. In addition, please note that these materials are acceptable for use in the Netherlands, and therefore may not be appropriate for your market. Please consult any local label information regarding the appropriate use of any marketed products in your jurisdiction.

Preparation date : September2020

Please keep up with your children's vaccination schedule even in times of COVID-19¹

Your care for your children's health can continue to be a priority

Follow recommendations of the World Health Organization (WHO) and of our national recommending bodies Rijksinstituut voor Volksgezondheid en Milieu (RIVM); Ministerie van Volksgezondheid, Welzijn en Sport²: do not suspend immunization activities as COVID-19 response measures allow and help us avoid the occurrence of new epidemics for vaccine-preventable diseases¹

Our vaccination center is applying all measures required by the National or local recommendation bodies Rijksinstituut voor Volksgezondheid en Milieu (RIVM); Ministerie van Volksgezondheid, Welzijn en Sport² in order to provide a safe service to you

Report adverse events/melden mogelijke bijwerkingen

If you are professionally active in a country other than the Netherlands, adverse events should be reported to the appropriate health authority in your country. You can also report an adverse event on the global website of GSK (you can select your home country) via www.gsk.com/en-gb/contact-us/report-a-possible-side-effect/.

Wilt u een mogelijke bijwerking op een GSK geneesmiddel melden, dan kunt u dat doen bij het Lareb (www.lareb.nl). Ook kunt u contact opnemen met GSK Nederland via telefoonnummer 033-2081100 of u mailt naar nl.bijwerking@gsk.com.
